

Marked-up version:

This application is a continuation-in-part of and claims priority to Applicant's copending application 10/026029, filed December 18, 2001 and entitled "Optical aperture for data recording having transmission resonance enhanced by surface plasmon resonance".

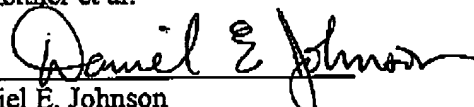

**REMARKS**

The declaration filed with the present application specified that the present application claims priority to Applicant's copending application 10/026029, filed December 18, 2001. With this amendment, Applicant is indicating the relationship between these applications. This amendment is being filed within 16 months of the filing date of the prior-filed application. In accordance with 37 CFR 1.78(a)(2)(ii), no fee is required.

Respectfully submitted,

C. Rettner et al.
